

Comau Presents Specialized Services for Industrial Maintenance and Facilities at Expoman 2017

- Specialized services for a wide range of industries
- Focus on productivity
- HUMANufacturing: the Comau approach to Industry 4.0 - humans and machines working in cooperation

*Comau's service professionals will be available for consultancy in **Stand 9***

Curitiba, August 7, 2017 – Comau presents its capabilities in industrial maintenance and facilities services at Expoman, an annual event held by ABRAMAN – The Brazilian Association of Maintenance and Asset Management. The Congress takes place from August 7 - 10 at FIEP Event Center of Curitiba, where experts from different industries will have the chance to consider the company's latest solutions for maintenance engineering, production support, and consulting. Comau plays an important role in Latin America as a reference in Specialized Maintenance Services. Our professionals will present Service's value proposition and offer the right mix of expertise, from manpower to special technology applications, focusing on customer's needs and boosting long-term productivity.

Companies from many sectors are focusing on an optimistic future after a period of economic instability, hence Expoman making "Maintenance and Asset Management During The Growth Recovery" the main theme of the event.

“Taking part in Expoman is a way to demonstrate Comau’s commitment to help industries manage and maintain their assets and provide greater added value and measurable benefits to customers in agribusiness, mining, petrochemical, steel, cosmetics, and many other sectors” stated Laerte Scarpitta, Comau’s COO of the LATAM region. “Companies which are ready to the economic crises recovery will have more chances to reach their full productivity potential and leverage business. Innovation is also in services, as a tool to manage resources and achieve effective results. The collaboration between humans and machines is the way to sustain productivity. We maintain our commitment to continue expanding our innovative products and services for different sectors.”

Comau Main Features

Comau is a global leader in the industrial automation field, that helps companies of all sizes to manage and maintain their assets by applying cutting edge technology into industrial maintenance specialized services. With the experience and know-how in the general industry, Comau can offer customized solutions to enhance both productivity and efficiency, with a medium-high OEE (Overall Equipment Effectiveness) achievement.

To confirm its approach to innovation, based on the know-how acquired over decades of developing automated production systems and high-performance industrial robots, Comau brings top notch technical standards to the maintenance and asset management market.

Comau’s offering to the market includes productivity solutions based on intensive manpower, such as global and specialized maintenance services, facilities, safety and environment. Additionally, Comau provides technology based solutions for Industry 4.0, digital workplace, safety regulations, consultancy and asset management.

During the event, spokesmen, consultants, and professionals from all industries will promote seminars, workshops, roundtables and present case studies. It’s a dynamic way to discuss best practices and to

PRESS RELEASE

consider business opportunities. In one of the round tables, Comau's HR Legal Manager in Brazil – Roberto Brandão – will consider labor relations and the new legislation in Brazil applied to manpower and services. In addition, Denílson Borges, responsible for Comau Service Sales in Brazil, will perform a workshop about maintenance focusing on productivity.

Leveraging its 40+ years of experience in the industry, Comau is in a unique position to understand the processes and the underlying needs of the operators. As a result, Comau's approach to collaborative, digital manufacturing is open, connected and easy to understand and to use. More importantly, it is characterized by a collaboration between man and automation. HUMANufacturing means humans and robots work side-by-side, in total safety.

All of these topics can be discussed at the Comau booth, **in Stand 9.**
