

COMAU ET MULLEN AUTOMOTIVE FONT ÉQUIPE POUR L'ASSEMBLAGE DE LA CARROSSERIE À GRANDE ÉCHELLE SUR LE SITE AMEC À TUNICA (USA).

Comau construit un atelier de carrosserie sur le site de fabrication AMEC de Mullen à Tunica, dans le Mississippi. Les plans d'agrandissement de l'usine prévoient 112.000 m² d'atelier de carrosserie, de peinture et d'assemblage.

Grugliasco (Turin), le 31 janvier 2022 – Comau annonce une alliance stratégique avec [Mullen Automotive, Inc.](#) (NASDAQ : [MULN](#)), constructeur émergent de véhicules électriques, pour la construction d'un atelier de carrosserie dans le Centre d'études et de fabrication avancée (AMEC) de Mullen à Tunica (Mississippi), aux États-Unis.

Comau et Mullen Automotive unissent leurs forces afin de mettre au point un atelier de carrosserie ultra moderne destiné au nouveau crossover électrique Mullen FIVE. Les compétences de Comau sont le fruit de plus de 45 ans d'expérience sur le terrain et d'une présence affirmée dans tous les grands pays industrialisés. Comau et Mullen s'attachent à créer les ateliers de carrosserie les plus précis et au top de la qualité, pour faciliter la production du FIVE.

Comau conçoit les process et l'équipement de l'AMEC à Tunica, où le FIVE sera produit. La vaste expérience de Comau dans le domaine de la conception d'ateliers de carrosserie place Mullen à la pointe de l'efficacité et de la qualité.

Laerte Scarpitta, Responsable de Comau pour l' Amérique, déclare : « *Comau exploite sa longue expérience et oriente ses compétences poussées vers le développement de marchés stratégiques comme l'électrification. À ce titre, nous sommes heureux de travailler avec un nouveau constructeur de véhicules électriques pour soutenir le déploiement de solutions d'électromobilité. Ce projet confirme notre engagement à faire progresser la mobilité du futur.* »

« *Comau est un leader mondial du développement des technologies d'automatisation et des ateliers de carrosserie pour l'industrie automobile. Nous sommes ravis qu'il travaille à la mise au point de l'atelier de carrosserie de l'AMEC à Tunica* », indique David Michery, PDG de Mullen Automotive.

Le crossover FIVE s'appuie sur une plateforme « skateboard », qui permet de multiples configurations du groupe motopropulseur et plusieurs niveaux d'ajustement, et a un design svelte « radicalement différent » (Strikingly Different™), donnant très envie de l'expérimenter en personne. technologies et des systèmes destinés à la fabrication de véhicules électriques, hybrides et traditionnels, des robots industriels, des technologies robotiques portables et collaboratives, de la logistique autonome, des centres d'usinage dédiés, ainsi que des services et produits numériques interconnectés, capables de transmettre, de créer et d'analyser des données de procédés et de machines. Fort de plus de 45 années d'expérience de terrain attestée et d'une forte présence dans tous les grands pays industriels, Comau aide les fabricants de toute taille et de pratiquement tous les secteurs de l'industrie à bénéficier d'une meilleure qualité, d'une productivité accrue, d'un délai de commercialisation réduit et de coûts globaux plus bas. Son offre s'étend également à la gestion de projets et au conseil, ainsi qu'à la maintenance et à la formation destinés à de nombreux secteurs de l'industrie. Basé à Turin en Italie, Comau possède un réseau international de 6 centres d'innovation, 5 hubs numériques, 9 sites de fabrication et emploie 4.000 personnes dans 13 pays. Grâce à son réseau mondial de distributeurs et de partenaires, la société peut satisfaire rapidement les besoins des clients de toute taille, où qu'ils se trouvent dans le monde. Grâce aux activités de formation organisées par son Académie, Comau s'est également engagé à développer les compétences techniques et managériales nécessaires aux entreprises pour relever les défis et les opportunités de l'Industrie 4.0.

About Mullen

Mullen is a Southern California-based automotive company that owns and partners with several synergistic businesses working toward the unified goal of creating clean and scalable energy solutions. Mullen has evolved over the past decade in sync with consumers and technology trends. Today, the Company is working diligently to provide exciting EV options built entirely in the United States and made to fit perfectly into the American consumer's life. Mullen strives to make EVs more accessible than ever by building an end-to-end ecosystem that takes care of all aspects of EV ownership.

Forward-Looking Statements

Certain statements in this press release which are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Exchange Act of 1934, as amended. Any statements contained in this press release that are not statements of historical fact may be deemed forward-looking statements. Words such as "continue," "will," "may," "could," "should," "expect," "expected," "plans," "intend," "anticipate," "believe," "estimate," "predict," "potential" and similar expressions are intended to identify such forward-looking statements. All forward-looking statements involve significant risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, many of which are generally outside the control of Mullen and are difficult to predict. Examples of such risks and uncertainties include, but are not limited to, whether the strategic alliance with Comau will be a success, whether the joint collaboration will result in the delivery of the high quality body shops that will enhance the overall production of the FIVE, or whether the collaboration will give Mullen a leading edge in efficiency and quality for the BIW (Body in White). Additional examples of such risks and uncertainties include, but are not limited to: (i) Mullen's ability (or inability) to obtain additional financing in sufficient amounts or on acceptable terms when needed; (ii) Mullen's ability to maintain existing, and secure additional, contracts with manufacturers, parts and other service providers relating to its business; (iii) Mullen's ability to successfully expand in existing markets and enter new markets; (iv) Mullen's ability to successfully manage and integrate any acquisitions of businesses, solutions or technologies; (v) unanticipated operating costs, transaction costs and actual or contingent liabilities; (vi) the ability to attract and retain qualified employees and key personnel; (vii)

PRESS RELEASE

adverse effects of increased competition on Mullen's business; (viii) changes in government licensing and regulation that may adversely affect Mullen's business; (ix) the risk that changes in consumer behavior could adversely affect Mullen's business; (x) Mullen's ability to protect its intellectual property; and (xi) local, industry and general business and economic conditions. Additional factors that could cause actual results to differ materially from those expressed or implied in the forward-looking statements can be found in the most recent annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K filed by Mullen with the Securities and Exchange Commission. Mullen anticipates that subsequent events and developments may cause its plans, intentions and expectations to change. Mullen assumes no obligation, and it specifically disclaims any intention or obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by law. Forward-looking statements speak only as of the date they are made and should not be relied upon as representing Mullen's plans and expectations as of any subsequent date.

This press release contains "forward-looking statements." Words such as "may," "should," "could," "would," "predicts," "potential," "continue," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates" and similar expressions, as well as statements in future tense, often signify forward-looking statements. These forward-looking statements include, without limitation, statements relating to the reverse merger, the Nasdaq approval process and proposed debut date of the Mullen FIVE (formerly MX-05) midsize crossover. These forward-looking statements are, by their nature, subject to significant risks and uncertainties.

Forward-looking statements should not be read as a guarantee of future performance or results and may not be accurate indications of when such performance or results will be achieved. Forward-looking statements are based on information that the Company has when those statements are made or management's good faith belief as of that time with respect to future events and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements, including factors beyond the Company's control. As a result of these and other risks, uncertainties and assumptions, forward-looking events and circumstances discussed herein might not occur in the way the Company expects or at all. Accordingly, readers should not place reliance on any forward-looking information or statements. The Company assumes no obligation to publicly update or revise its forward-looking statements as a result of new information, future events or otherwise. All forward-looking statements herein are qualified by reference to the cautionary statements set forth in this section.
