

COMAU AND ROBOZE COLLABORATE TO EXPAND INTO NEW MARKET SECTORS

- The two Italian companies have entered into a collaboration aimed at combining digital additive manufacturing and automation to open new customer and market segments
- This initiative responds to the growing need for affordable, easy-to-use automation in advanced manufacturing across industries and geographies
- Through the collaboration, customers will have access to on-demand 3D printing of parts with consistent and repeatable results. This will help optimize material usage, reduce waste and improve overall production efficiency
- Thanks to Comau and Roboze's Academies, the companies are also committed to cultivating the next generation of automation engineers in the field of additive manufacturing
- Leveraging Roboze strengths in high performance part production and Comau's experience in digital factory automation, the customers of both companies will benefit from each other's solutions portfolios in relevant industry sectors

TURIN, BARI, June 11, 2025 – Comau and Roboze have announced a collaboration focused on meeting the market need for affordable automation in advanced, on-demand manufacturing applications. The cooperation targets a range of sectors, from automotive and aerospace to energy, racing, and beyond. The joint effort accelerates the availability of automation for advanced manufacturing everywhere, enabling true just-in-time production whenever and wherever it is needed. This directly supports reshoring strategies and sustainable manufacturing models, allowing companies to optimize resources, minimize waste, and align with growing market expectations for low-impact, environmentally responsible production.

This collaboration emphasizes the key role of robotized processes as a game changer in enabling the widespread industrial adoption of needs-based advanced manufacturing. It also enables the creation of advanced geometries that are not feasible with traditional manufacturing methods, empowering companies to produce complex and customized parts on demand through a highly flexible and cost-effective system.

"The combined expertise and technologies of Comau and Roboze, two Italian companies capable of delivering cutting-edge solutions to international markets, allow us to offer customers innovative solutions that integrate automation, robotics, and additive

manufacturing,” said Giacomo Del Panta, Chief Customer Management Officer of Comau. “We are confident this collaboration can bring tangible benefits to manufacturing processes across numerous industrial sectors. Fully aligned with our growth and diversification strategy, it marks another concrete solution that will contribute to our global growth trajectory.”

“We could not have asked for a better counterpart than Comau, a leading company in the world of robotics and automation. Integrating our advanced 3D printing technologies with Comau’s robotic solutions presents a unique value proposition for global industry. Through this partnership, we’re poised to drive a meaningful transformation in our clients’ manufacturing capabilities, enabling them to be more innovative, agile, and sustainable,” said Alessio Lorusso, CEO of Roboze.

ABOUT COMAU

Comau is a worldwide leader in delivering sustainable advanced automation solutions. With 50+ years of experience and a global presence, Comau is helping companies of all sizes in almost any industry leverage the benefits of automation. Backed by a continuous commitment to designing and developing innovative and easy to use technologies, its portfolio includes products and systems for vehicle manufacturing, with a strong presence in e-Mobility, as well as advanced robotics and digital solutions to address rapidly growing markets in industrial sectors. The company’s offering also extends to project management and consultancy. Through the training activities organized by its Academy, Comau is committed to advancing the technical and managerial knowledge necessary to face the challenges related to automation and leverage the opportunities of a constantly changing marketplace. Headquartered in Turin, Italy, Comau has an international network of 7 innovation centers and 11 manufacturing plants that span 11 countries and employ 3,800+ people. Together with its wide network of distributors and partners, the company is able to respond quickly to the needs of its customers, no matter where they are located throughout the world. www.comau.com

ABOUT ROBOZE

ROBOZE is a leading company in the development and production of advanced solutions in the field of industrial 3D printing. Founded with the aim of transforming how companies design and produce components, ROBOZE offers comprehensive solutions for additive manufacturing with super polymers and composite materials, enabling applications in sectors such as aerospace, mobility, energy, and manufacturing. ROBOZE’s mission is to accelerate the adoption of 3D printing through continuous innovation and the provision of reliable and sustainable solutions. For more information, visit www.roboze.com
